In an address to students of the University of Chicago, President Harper declared that in 50 years not a single religious problem of any importance had been solved by the theological seminaries of the United States. He says they are too much occupied with denominational questions.

The protracted meeting at the Mt. Zion Christian church will continue through the rest of the week. Pastor Brooks and Rev. Klesick are doing a world of good in that neighborhood. There were eight confessions yesterday, making altogether 33 during the progress of the meeting.—Lexington Democrat.

## Meeting at Old McCormack Church.

Evangelist James H. Morton, of Berlin, Middle Tennessee, who is engaged in evangelistic work in East Tennessee and Southeastern Kentucky, is now holding a very successful meeting at Old McCormack church in Lincoln county. This meeting commenced on Sept. 27 and up to date, Oct. 10, there have been 26 additions to the church. In East Tennessee and Southeastern Kentucky to date there have been 253 additions. Mr. Morton, when a boy 18 years old, enlisted as a soldier in the Confederate army and was with Gen. Zollicoffer in his Kentucky campaign. He is now 62 years of age. He commenced preaching in 1867 and for several years has engaged in evangelistic work in Tennessee, Alabama, Mississippi and Texas. ## Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes such injuries to heal without maturation and in one third the time required by the usual treatment. It is for sale by all druggists.

## Chamberlain's Cough Remedy.

No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. For sale by all druggists.

The Kentucky Union Oil Co., capitalized at \$3,000,000, backed by Eastern capital, has been organized to develop their immense holdings in Eastern Kentucky and will open an office at Beattyville at once.

## DEMOCRATIC TICKET.

For President.

ALTON BROOKS PARKER,  
of New York.

For Vice President.

HENRY G. DAVIS,  
of West Virginia.

For Judge Fifth Appellate District.

JUDGE JAMES E. CANTRILL,  
Of Georgetown.

For Congress.

GEORGE G. GILBERT,  
of Shelby.

THE Elmira Gazette says that 54 newspapers in the State of New York that supported McKinley are now supporting Parker. Only one has gone over from Bryan to Roosevelt. At the head of the list are the great independent journals of New York City that supported McKinley and are now supporting Parker. This in itself is a rather strong indication of the political trend of the Empire State and it will not be surprising if the landslide in New York will carry with it New Jersey and Connecticut, whose interests are so closely bound up with the Empire State.

THE candidates for county offices should not let the primary of Dec. 3rd overshadow the regular election of Nov. 8th, but we fear the majority of them are doing so. It is just as important, if not more so, for Lincoln county to go democratic this year as next, and the candidates who work hardest for the splendid ticket under the rooster should be the ones rewarded in December. Democrats should watch the many candidates and see what they are doing against the common enemy—the republican party—and then make up their minds as to who they will vote for.

JOHN SHARP WILLIAMS' speech at Louisville was as convincing as it was entertaining. His logic, no less than his humor, worked his 3,000 hearers up to a vociferous expression of approval. It was practically the opening gun in the fight in the Fifth District and its reverberations have filled the republicans with alarm. They have nominated a weak ticket composed of bolting democrats who will not be supported even by the republicans, there being a feeling among the rank and file that this undesirable element should not be encouraged.

THE basis of success in political contests is the efficiency and earnestness of the precinct organizations. When these faithful workers are enthusiastic the way is clear for victory. The campaign committee is particularly gratified at the reports from the precinct chairmen and their sub-committeemen. There is an increase in interest throughout the State that gives assurance of an old time majority for Parker and Davis.

YESTERDAY was the last day for getting on the official ballot for the election to be held Nov. 8th. There will be six devices on the ballot, democrat, republican, populist, prohibitionist, socialist and socialist labor. The State furnishes the paper for the ballots and as there are over 3,000 precincts to be supplied and idea of the tons of paper it will take may be had.

## POLITICAL.

Indiana democrats are taking a 30-day poll of the voters of the State. Gov. J. C. W. Beckham has been asked to make speeches in Indiana. Gov. Odell, of New York, declares he is tired of office holding and wants no more.

Ex-President Cleveland has consented to make a speech in New York City for Parker and Davis.

The announcement of the appointment of Robert J. Wynn as postmaster general was made by President Roosevelt.

The republican National committee is arranging to have Senator Fairbanks speak in Indiana the last week of the campaign.

M. E. Ingalls, president of the Big Four Railroad Company, was the principal speaker at a democratic rally in Indianapolis.

One result of the coming election will be to establish the truth of the old doctrine that the "pen is mightier than the sword"—Lex Democrat.

The republicans of Massachusetts held a convention of less than four hours' duration in Boston and nominated a State ticket headed by John L. Bates, the present governor.

Massachusetts democrats held one of the most harmonious conventions in the history of the party and nominated a State ticket headed by Wm. L. Douglas, of Brockton, for governor.

National Chairman Taggart has been advised that the labor organizations of Montana had endorsed Parker and Davis. This, Mr. Taggart says, insures the electoral vote of Montana for the democratic national ticket.

Former President Grover Cleveland will preside at a mass-meeting to be held in New York City October 21.

Chairman Cowherd, of the democratic Congressional committee, says the estimates of district leaders in all the doubtful districts indicate a decided trend toward the democratic nominees. The most novel campaign on record is being conducted by Hopkins and Blakey, candidates for Congress in the Tenth district. They travel, eat and sleep together and speak from the same platform.

The campaign tour of the vice presidential candidate, Mr. Davis, and former Senator David B. Hill through Maryland and West Virginia opened auspiciously at Baltimore, where they met with an enthusiastic reception.

In an opinion to County Clerks Attorney General Hays holds that the registration certificate is the property of the voter and should be returned to him by the election officers after he has voted so that he may be able to vote at all elections until the next general election.

The banana crop of Honduras was badly damaged by a storm. It is estimated that no fruit will be secured for 30 days and that the output will be reduced 50 per cent. for eight months.

Advices from the seat of war are meager, but it is believed that a great battle is imminent. Gen. Kuro-patkin is continuing his advance. It is reported. The Japanese, it is thought, will make a stand at Liao Yang.

The Japanese began the study of modern warfare 40 years ago. Ten Samurais, detailed for the purpose by the government, got instructions from the officers of a British regiment then stationed at Yokohama, and proceeded to work out tactical problems with little pieces of painted wood upon a mat spread out on the floor.

This motto is carried into effect in every department. When a lady buys a dress she wants the very best material she can get for 50c, \$1.00 and \$1.50. In order to have a better article than any one else, we strain a point and pay 5 or 10c more on the yard than other stores pay. As an example, we had samples of \$1 Broadcloth from other stores and several neighboring towns compared with ours and the customer decided at once that ours was the better and bought of us.
